

A screenshot of a web browser showing the Google homepage. The Google logo is at the top left, followed by a search bar with the placeholder "Ara". Below the search bar is a blue button labeled "Google'a Git".

and a software provider that
uses machine learning to
analyze video content. BeyondCore
provides a platform for
automated monitoring of brands
across multiple media. BeyondCore Enterprise
is available.

With Apple's Catalyst program, we're able to bring the latest iOS features to Intel-based Macs without having to rewrite existing apps. It's a great way to keep up with the latest iOS features, and it's especially useful for developers who want to take advantage of the latest iOS features without having to learn Objective-C or Swift.

The screenshot shows the Microsoft Edge browser interface. The address bar at the top has the word 'Search' highlighted in blue. Below the address bar, the main content area displays a slide from a presentation. The slide has a light blue background and features the text '2021' and '2 Aziende Dujardin'. To the right of the text is a small graphic of a computer monitor displaying a blue square icon.
